Christian Martin

President and CEO

Mr. Martin joined CRIM in 1999 and has been managing the CRIM office in Quebec City since June 2001. He was responsible for starting up the Software Test Centre (STC) and also managing several mandates on IT health applications, including the establishment of the Centre de certification des logiciels for the MSSS and its network.

He also helped establish the Information Security Institute of Québec (ISIQ), which aims to develop businesses' and individuals' information security and to encourage responsible management of these types of risks.

In October 2004, he was appointed Vice President of CRIM Québec, CTL and ISIQ.

He became ISIQ's President and CEO in June 2009 following the CRIM board decision to make ISIQ an independent agency.

A graduate in electrical engineering from École Polytechnique de Montréal, Mr. Martin has a Masters in Engineering and more than 24 years of experience in the IT industry, including over 13 years in software development in the telecommunications sector and 2 years as Director of Quality Assurance.
